

6 TIPS TO REMEMBER AFTER TREATMENT WITH ARESTIN

1 Don't touch
Avoid touching areas of your gums that your dental professional has treated.

2 Wait to brush
Wait 12 hours before brushing your teeth in area that have been treated with ARESTIN.

3 Wait to floss
Wait 10 days before flossing or using toothpicks or other devices that clean between your teeth in areas that have been treated with ARESTIN,

4 Avoid eating hard, crunchy, or sticky foods
For one week after treatment

5 Always Follow Up
Because the bacteria that cause periodontal disease are persistent, the infection can return. Please be sure to make follow-up appointments with your dental professional to maintain healthy gums and teeth.

6 Keep Your Scheduled Appointments
It is important to keep all your dental appointments so that your dental professional can re-examine your gums, make sure the infection is under control, and measure the success of your treatment.
